SUMMARY

Self-taught developer demonstrating a distinctive and innovative approach to creation. Delivers high-quality results within tight deadlines. Quick learner of new technologies. Seeking a challenging role to develop skills and contribute to organizational goals.

PROJECTS

Ecommerce - Admin-Panel UI : Utilized Next.js and Tailwind CSS for efficient React development. Leveraged Firebase and MongoDB with Mongoose for serverless functions, real-time database, and authentication. Employed bcryptjs and JSON Web Tokens (JWT) for secure password hashing and user authentication. Integrated Stripe for seamless online payment processing. Managed dependencies with npm for consistency. Employed @headlessui/react for accessible UI components and autoprefixer/postcss for styling. Implemented joi for data validation and react-toastify for user-friendly notifications. Utilized useContext for global state management. Ensured code security with a private repository for version control. Defined npm scripts for common tasks and included react-spinners and js-cookie for enhanced UI and efficient cookie handling.(Git Hub)(Try it here)

Cooking Mace : Food-Studio simplifies your food ordering experience by letting you browse and order from the latest city restaurants. Powered by React JS and styled with Tailwind CSS, the platform utilizes Firebase for the database, Parcel for bundling, Firebase-Auth for secure authentication, and Redux Toolkit for efficient state management. The workflow involves fetching real-time restaurant data through the Swiggy API, presenting detailed information with area names, cuisines, and ratings. The platform supports restaurant search, enables dish exploration with pricing details, facilitates seamless cart management, and ensures a personalized experience through user authentication before placing orders.(Git Hub)(Try it here)

MINI PROJECTS

Image Galary Pixels API, (Try it) (Git Hub it)
Animal Media UI, (Try it Hub) (Git Hub)

SKILLS

Front-end Development :

- HTML — CSS — JavaScript — React
- Tailwind CSS — Bootstrap
- Redux — ReduxToolkit — Context — NextAuth — Next

Back-end Development :

- Node.js — Express — Socket.IO — Nodemailer
- Firebase — Razorpay — Multer — JWT — EJS
- Postman — REST — API — RESTful API — Email JS

Database :

- MongoDB — NoSql

Deployment :

- Vercel — GitHub

Familiar :

- Lightroom — C — Git Actions — AWS

ACHIEVEMENTS

Namaste Javascript Course Completion,Youtube
Namaste React Course Completion, Namaste Dev

EDUCATION

Bachelor of Computer Application BCA,
Manipal University Jaipur
